COVID-19 Operational Update

Due to the critical role we play providing "Essential Infrastructure" to the mining industry Oxford Assaying & Refining Corp is considered "Critical Workforce Infrastructure" and may continue to operate under the COVID-19 Health Mandates recently issued in Alaska.

First and foremost, the health and well-being of our employees and customers remain top of mind and our highest priority. Oxford has taken several precautionary measures to minimize the risk to the health and safety of our employees and customers. We wanted to reach out and share a few of the ways we are here to serve you during this time.

We will be available by telephone or email during regular business hours, and most operations will continue without interruptions. We are limiting customer interactions at our locations in regulation with local and federal orders and CDC guidelines. Beginning Monday, March 23rd, 2020, our Anchorage and Fairbanks locations will be closed to the public and open by appointment only. These changes will remain in effect until at least May 1st, 2020, and may be updated or revised at any time.

Stay healthy and well!

- The Team at Oxford Assaying & Refining Corp
